safeguard a contraband cargo with merican lives and no citizen should be permitted to endanger the peace of

a nation at a time like this. "Ours is the greatest of the central nations and will probably be the mediator when the time for mediation comes. It would be a crime against civilization as well as against our own people to become involved in this war and thus loan our army and navy to a European monarch to use in setting his quarrels. If Congress has the right to declare war, it certainly has the right to promote peace by restraining citizens from taking unecessary risks."

"A mayor keeps the people of his city out of the danger sone during a riot. Can our Government afford to do less when the world is in riot?"

Mr. Bryan also sent word that he would reach Washington March 4. make an address on peace in a local theatre and remain here until March 6. Bryan's friends declared, however, he would not make an active fight for passage of a warning resolution.

The rumor that Germany would dehe would stand by his policy as ex- that armed merchantmen would be pressed in his letter last night to sunk without warning after Feb. 39.

CREAM FOR CATARRH OPENS UP NOSTRILS

In one minute your clogged nostrils will open, the air passages of your head will clear and you can broathe freely. No more hawking, snuffling, blowing, headache, dryness. No struggling for breath at night; your cold or catarrh will be gone.

Get a small bottle of Ely's Cream Balm from your druggist now. Apply these of this fragrant structure.

President's Salient Phrases in Stand for National Honor

I shall do everything in my power to keep the United States out of

No nation, no group of nations, has the right while war is in progress to alter or disregard the principles which all nations have agreed upon in mitigation of the horrors and sufferings of war. I cannot consent to any abridgement of the rights of American

citizens in any respect. The honor and self-respect of the nation is involved. We covet peace and shall preserve it at any cost but the loss of honor.

To forbid our people to exercise their rights for fear we might be called upon to vindicate them would be a deep humiliation indeed. If in this instance we allowed expediency to take the place of prin-

ciple the door would inevitably be opened to still further concessions. Once accept a single abatement of right and many other humillations would certainly follow,-Extracts from President Wilson's letter to Senator Stone.

of the nation must be protected at tration course. They pointed out that any eventuality. JUMP FROM BED IN MORNING AND DRINK HOT WATER

Open sluices of system each morning wash away the poisonous, stagnant matter, says authority.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank each morning before breakfast, keeps us looking and feeling fit.

Life is not merely to live, but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead. feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning, before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and puri-

esta.

fying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of peope who are bothered with constipation, bilious spells, stomach trouble, rheumatism; others who have sallow skins, blood disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store, which will cost but little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation. - 1.4

SUBWAY, ELEVATORS etter to Senator Stone, as I see !!.

"The resolution to exclude Americans from armed ships will not come up to-day. Some member might try to obtain unanimous consent, but of course there would be numerous objections. Those who favor passage of the resolution would not want it to come up in that way."

Mr. Kitchin said he preferred that any extended statement as to the conference at the White House should come from Speaker Clark. In a general way, he said, matters remained in status quo. It was his opinion, swamped. however, that the proposed resolution

SPEAKER CLARK.

to merchantmen captains to attack, bombard or ram submarines under any circumstances whatever.

A new movement to effect a com-A new movement to erect a com-promise between the President and Congress developed during the day. It proposes to frame, if possible, and pass a resolution upon which both the President and Congress can agree. This resolution may be of-fered by Representative Flood. Mr. Flood planned to see Secretary Lan-sing this afternoon to discuss the

WORK AT ONE POINT.

Nine big electric pumps were required to pump the water from the ube at Forty-sixth Street. A permanent battery of pumps at Times Square station took care of the flood there. Thousands of passengers on trains

which were halted between Ninety-sixth and Forty-second Streets when the power was shut off at 9.59 o'clock were held in the cars from fensive purposes, these Congressmen believe the President may be influenced to approve a resolution warning Americans to keep off armed ships bearing over the maximum calling.

emergency lamps were in operation and there was very little disorder. In accordance with a rule local trains in the section affected by the Quick work by Speaker Clark pre-flood were stopped with the front ented a threatened discussion in the es of the rear car of the preceding train. In this way a continuous route was formed for passage to the nearest station.

Representative Hulbert of New York, a Democrat, asked unanimous consent for printing 5,000 copies of the McLemore resolution warning Americans off armed ships. Republican Leader Mann objected. Representative Hailey, who received the telegram from Bryan supporting the agitation, shouted for recognition.

Speaker Clark banged his gavel, recognized Representative Fitzgerald of New York, and with Representative Balley still striving to be heard, the House passed to other business. Builey afterward denied that he was attempting to read the Bryan tele-

gram.

After a conference with Majority
Leader Kitchin, Representative Harrison, who is a member of the Rules
as well as the Foreign Affirs Committee, said he was confident the

Western Up. 15. Sta Sta Sta State in Berlin.

Lisbon (via Paris), Feb. 25.—The Official Gazette publishes two decrees management only in the district between Forty-second and Ninety-sixth between the district between Forty-second and Ninety-sixth Street took up a lot of time and trains ran slowly and were crowded to capacity. Tens of thousands of persons bent on taking subway trains were turned black by conditions and swarmed through the pouring rain to the overcrowded surface and "L" lines.

With sewer inlots generally blocked, the streets were rushing rivers and

With sawer iniots generally blocked, the streets were rushing rivers and the subway tieup was the direct cause of widespread discomfort. Some of the pressure on the subway shuttle service was relieved after 12 o'clock when it became generally known that the service was inadequate. Prompt

when it became generally known that the service was inadequate. Prompt notification to passengers entering stations that there was a blockade did away with the dangerous station platform congestion which has attended similar blockades in the past. All passengers compelled to leave trains before reaching their destination were furnished with emergency tickets entitling them to another ride.

While the primal trouble was at Forty-sixth Street, where Broadway and Seventh Avenue cross and a forty-foot shaft for the new B. R. T. subway adjoins the wall of the old subway, the water flowed down to the lowest point in that vicinity. Times Square station, and gathered there to a depth of a foot or more. The new Seventh Avenue subway, which connects with the old subway just north of the Times Square station, was also a source of trouble, for it was flooded and poured out its share onto the tracks of the old system.

FASTEST GROWING BRAND

Even if you got no more of it, U. S. Marine would be the greatest value in cut plug smokes. Because this fine old Burley tobacco—sun ripened and aged for 3 to 5 years—is jammed full of the hearty satisfaction that nature puts into the choice tobacco leaf.

But when on top of the better quality you get a bigger package for your nickel than any other cut plug gives you—that means you get a double street was full to the street level at noon and the engineers in charge frankly admitted that they didn't believe they could empty it under the conditions prevailing. A big sewer in Seventh Avenue, between Forty-sixth and Forty-ninth Streets, uncovered by the B. R. T. subway builders, pour descriptions of the tube and gushed up like a geyser.

talue in U. S. Marine.

Cut plug smokers soon found this out a year ago when U. S. Marine was introduced in New York.

And that's why U. S. Marine sprang into instant popularity and is to-day the fastest growing brand of cut plug tobacco on the market.

U. S. Marine has a snappy, getthere taste that you cannot get in any other cut plug tobacco.

Just try a big 5-cent package and you'll know why so many men are forsaking all other cut plugs for U. S. Marine.

The local trains were ran close up to each other so us to form a continuous passageway to the nearest passageway to the nearest

station. This was good work on the part of the operating company. But there was difficulty about getting passengers out of express trains. It is not easy to step across the gap between the tracks and some sort of the state of boards to make a bridge would be meful.
"There was every opportunity for

There was every opportunity for a panic if other conditions had prevailed to alarm the passengers. But the people were very calm and for a long time we sat there in patience, thinking the delay merely some temporary blockade. New Yorkers did not get frightened or alarmed this time and conducted themselves very

HUMAN ELEMENT CAUSE OF WRECK, **DECLARES BARDO**

No Mechanical Device Can Offset It Says New Haven Manager.

NEW HAVEN, Conn., Feb. 25,- "he 'ederal inquiry into the causes of the wrock at Milford last Tuesday on the oad was completed to-day so far as taking of testimony is concerned. The commissions will now make tests of the signal devices to determine their

efficiency.

The chief witness to-day was General Manager C. L. Bardo of the company, who declared in answer to questions that he knew of no mechanical device which could offset the human element. He could not account for the presence of Harold Sweeney on the engine of the extra passenger train with Engineer W. R. Curtis and Fireman McGinness, which ran into the engine. Asked as to whether or not signals had been properly observed by enginemen, Mr. Bardo sald that a total of 40,308 efficiency tests had been made under thirty-five different classifications and that with one exception all had been complied
